Gateway®

User Guide

Wireless Mouse

How to Connect

Mini Receiver Mode
1. Insert the Mini receiver, located in battery compartment, into computer USB port (wait for the computer to automatically install the hardware for the first time)

2. Install 2x AAA batteries (the positive and negative directions cannot be reversed)

3. The mouse can be used after successful connection when the red light on the bottom of the mouse lights up

Bluetooth Mode
1. Install 2x AAA batteries (the positive and negative directions cannot be reversed)

2. Bluelight on bottom of the mouse starts flashing

3. Search Bluetooth devices in your computer

4. Pair the devices after finding the mouse model, GATEWAY MOUSE

5. The mouse can be used normally when the red light is on after successful pairing

*Note: Bluetooth Mode cannot start if mini receiver is plugged in.

Stand-by Mode
Mouse will go into Stand-by mode after one minute of non-use, press any button to wakeup from Stand-by Mode.
